Seed Enhancement and Coating Technology

August 15, 2008

Mr. Mark Husar
California Lighting Services, Inc.
444 Main Avenue
Sacramento, CA 95838

To Whom It May Concern:

My name is Darryl Strand and I am the Operations Manager for the Germain's Technology Group NA, Inc. in Gilroy, California.

This letter is in reference to California Lighting Services Incorporated, owned and operated by Mark Hussar. Mark recently completed a lighting project for us here at our Gilroy facility. The project was facilitated through Right Lights and included a significant rebate through P.G & E. The project included changing out all fixtures in the plant production areas as well as the entire business office.

Mark proved to be very instrumental in insuring we got the service and lighting system we desired. There were many challenges working with Right Lights. Mark personally helped us through disappointments with the project that were brought on by communication issues with Right Lights. He and his team were very professional and simply a pleasure to work with. Mark got the job done on time and on budget.

I will definitely consider California Lighting Services for any future lighting needs I may have and would whole-heartedly recommend him and his company for any lighting projects.

Sincerely,

Darryl Strand
Operations Manager
Germain's Technology Group NA, Inc.
